EXECUTIVE READOUT

Customer shopping behavior is a loyalty story with a subscription gap

3,900 purchases · customer segments · product signals · growth opportunities

Made with GAMMA

Three signals should shape the next growth plan

01

Loyalty is strong

3,116 customers are classified as Loyal, while only **83** are New.

02

Subscriptions are under-penetrated

27% of customers subscribe; **73%** do not.

03

Discounts do not eliminate spend

839 discount users still spent above the average purchase amount.

Made with GAMMA

The analysis combines transaction data with customer and fulfillment signals

Transaction base

3,900 purchases across 18 columns and 25 products.

Decision lenses

Demographics, category, purchase amount, discounting, shipping, reviews, subscriptions, and frequency.

Data preparation

Review ratings were cleaned using category-level median imputation; cleaned data was loaded into PostgreSQL for SQL analysis.

DATA FOUNDATION

Transaction, customer, and fulfillment signals

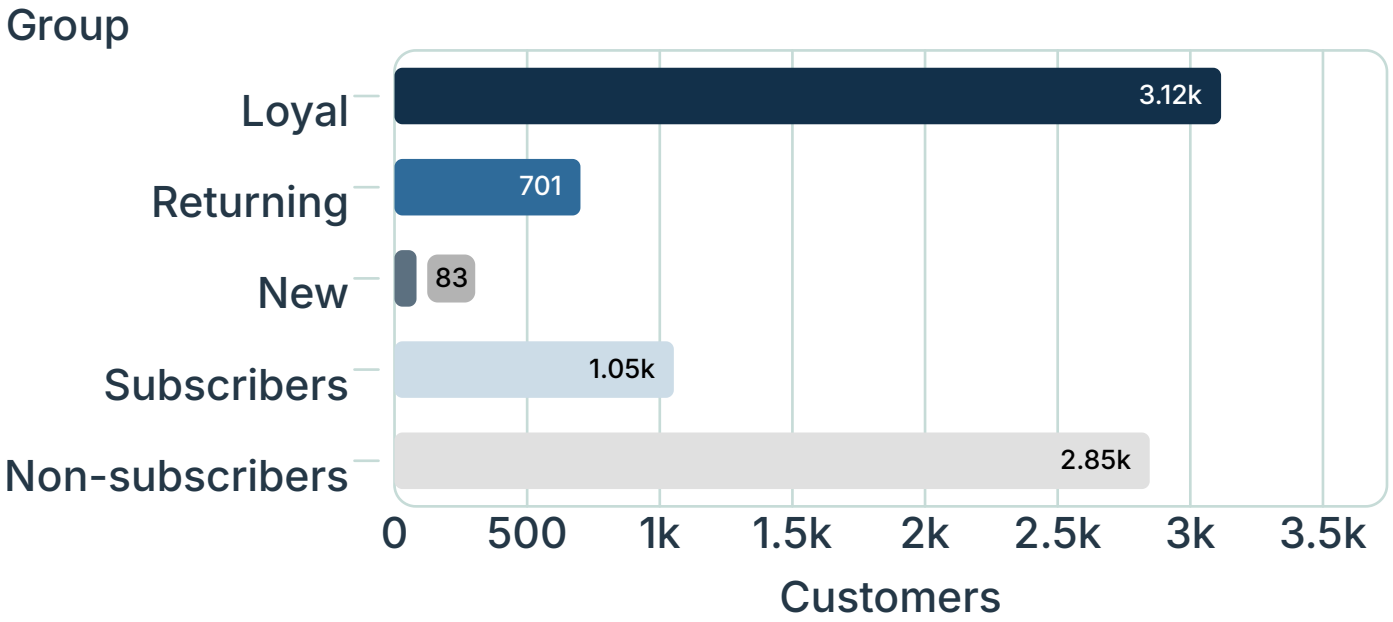

A single analytical base connects behavior, category, shipping, and subscription patterns.

Made with GAMMA

Loyal customers are the foundation; subscriptions are the unlock

Most customers are already repeat buyers, but subscription adoption remains limited. The opportunity is to convert proven behavior into recurring value.

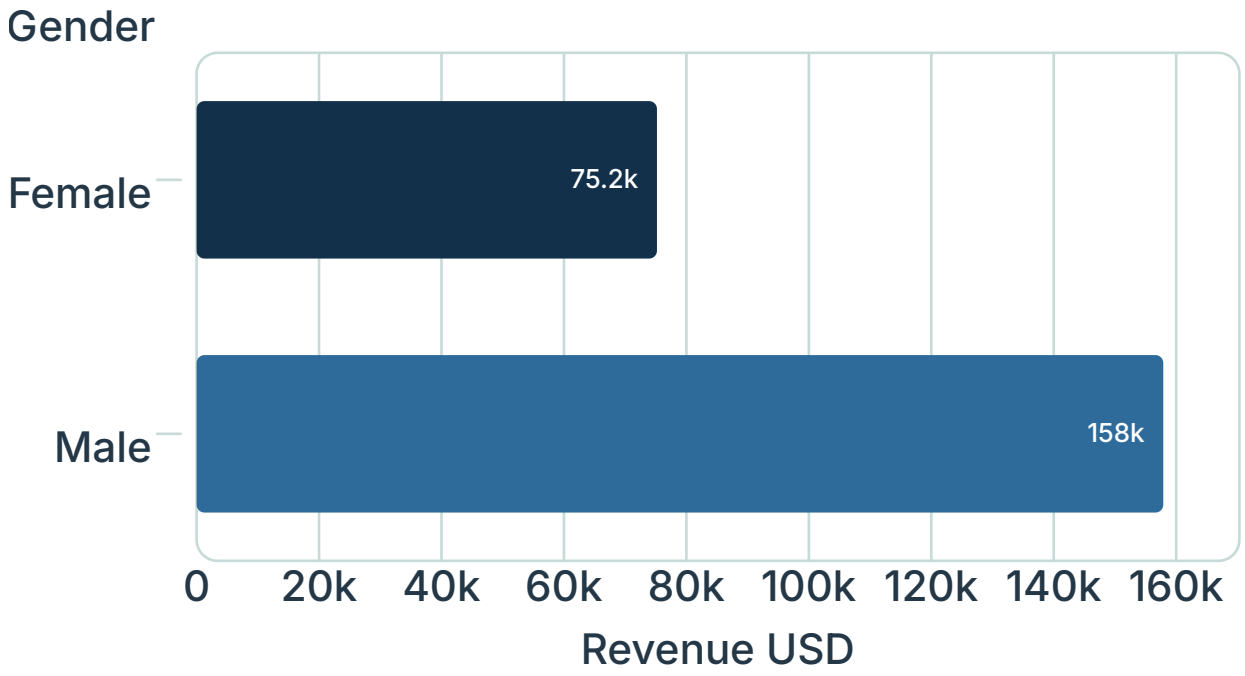

The customer base is dominated by Loyal customers, while subscribers are a minority.

Customer segment and subscription mix · customers

Revenue is concentrated in male customers and clothing

Revenue by gender · USD

$157,890

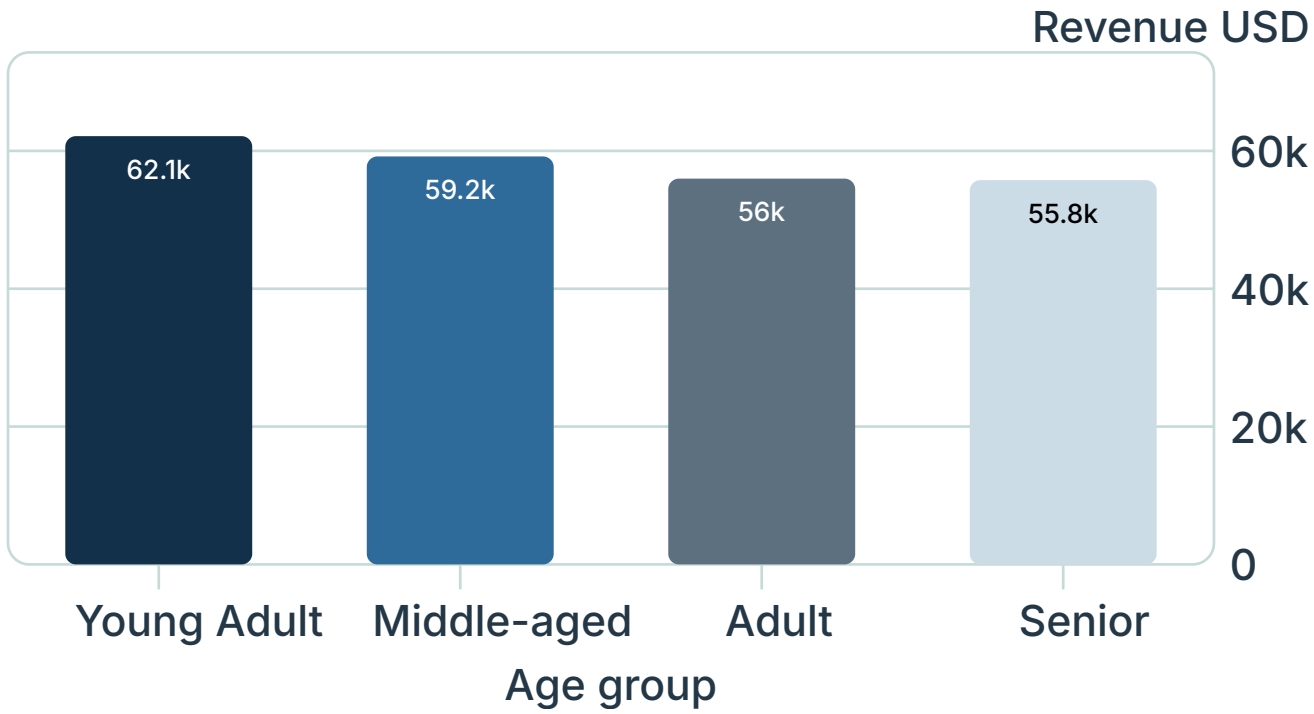

Male customers generated the majority of observed revenue.

Clothing leads category revenue at approximately **$90K**, followed by accessories at approximately **$70K**.

Use category scale to prioritize merchandising and campaign investment.

Made with GAMMA

Young adults lead revenue, while express shipping signals higher spend

Revenue by age group · USD

$60.48

Express-shipping orders averaged more than Standard.

Standard averaged **$58.46**.

Target convenience-led offers toward higher-value segments and fulfillment moments.

Product signals point to a focused merchandising story

Top-rated products

Gloves **3.86** · Sandals **3.84** · Boots **3.82** · Hat **3.80** · Skirt **3.78**

Category leaders

Jewelry in Accessories · Blouse in Clothing · Sandals in Footwear · Jacket in Outerwear

Feature high-rated products in campaigns, then use category leaders as conversion anchors.

Made with GAMMA

Discounting is a lever, but some products may be over-dependent on it

Highest discount rates by product · percent

Promotion can coexist with strong basket value.

High-spending discount users show that promotion can coexist with strong basket value.

Review discount depth by product and test margin-aware targeting instead of broad markdowns.

Made with GAMMA

Turn existing loyalty into higher recurring value

1. **Convert repeat buyers**

   Give loyal and returning customers a clear subscription reason.

2. **Protect margin**

   Reserve deeper discounts for products with a measurable response.

3. **Personalize campaigns**

   Lead with clothing, accessories, young adults, and express-shipping moments.

4. **Merchandise proof**

   Spotlight top-rated products and category leaders.

Recommended next moves for the business

1

Test subscription value

Launch a subscription value test with exclusive benefits for loyal customers.

2

Manage promotion by margin

Build a margin-aware promotion dashboard for discount-dependent products.

3

Make performance weekly

Use the Power BI view as the shared weekly operating rhythm for category, age, shipping, and subscription performance.
